### Japs Accept Plan For Quadruple Pact In The Far East

WASHINGTON, December 8.—(By The Associated Press)—The Japanese government has accepted the proposal for a quadruple pact in the Pacific, an authorized British spokesman said today.

The British spokesman said the 5-5-3 ratio proposition with regard to capital ships was in some way related to a complete settlement and that this proposition had not yet been accepted by the Japanese government.

Calling attention to an Associated Press dispatch from Honolulu quoting a Japanese newspaper as to the acceptance by the Tokyo government of the quadruple pact, the British spokesman said this was correct, and that the Washington conference knew it to be correct.

WASHINGTON, D. C., December 8.—(By The Associated Press)—The powers represented in the Far East committee of the Washington conference today adopted a resolution agreeing not to enter into any treaties or understandings among themselves that would impair the four great resolutions concerning China.

The resolution as adopted by the Far Eastern committee, it was explained, was declaratory of a principle against extension by foreign nations of further special spheres of influence or of leased territory.

### American Schooner Held By Mexicans

WASHINGTON, D. C., December 8.—(By The Associated Press)—The American schooner Mabel, which was seized by Mexican patrol vessels last Sunday on a charge of illegal fishing, still is being held at Ensenada, Mexico, the state department was advised today in a dispatch from Consul Burdette. The dispatch made no reference to the three members of the crew of the Mabel, who were reported to have been held by the Mexicans as hostages for payment of fines.

### 13 Perish In The Storm Off New Foundland

ST. JOHN'S, N. F., December 8.—At least eighteen lives were lost, more than 200 of the fishing schooners, barges and tugs were destroyed and property damaged amounting to \$250,000 was done by the storm that raged along the New Foundland coast on Monday and Tuesday. It was believed today that the list of vessels lost in the gale might be increased when a check of the craft exposed to the fury of the storm was completed.

Shippers who brought their vessels into port reported the storm was one of the worst that ever swept the coast. Many of the vessels wrecked were laden with winter supplies consigned to settlements north of here.

### OPPOSITION TO TREATY IN DAIL EIREANN

DUBLIN, December 8.—(By The Associated Press)—Announcement was made today at the military headquarters here that if the Anglo-Irish agreement is ratified, the crowd forces would be removed from Ireland within a month.

BELFAST, December 8.—(By The Associated Press)—The members of both houses of the Ulster parliament considered the Irish agreement at a meeting this morning. After two hours of private conference, it was announced that Sir James Craig, the premier, would leave for London tonight.

DUBLIN, December 8.—(By The Associated Press)—The Dail Eireann cabinet assembled here today to consider the treaty signed in London by the Sinn Fein and British delegates creating an Irish free state. Its action is fraught with great significance, as it is expected to develop for the first time the real attitude of Eamon DeValera and his counselors toward the treaty on which the Republican leader has thus far steadfastly refused to comment. This continued silence has been interpreted in many quarters as indication of his dissatisfaction with the terms.

Talk of possible split in the Dail cabinet over the terms is increasing and the resignations of some of the cabinet members are predicted, among them Cathal Brugha (Charles Burgess), minister of defense. Some of the leading members of the cabinet are known to object to the form of the oath of allegiance laid down in the treaty. Regardless of possible difference, however, it is believed the agreement will be approved, in principle at least.

The public maintains the same semblance of indifference toward the agreement noticeable when the news was first received. The people seem generally satisfied, but refrain from expressing their feelings in any outward demonstration, preferring to wait for somebody to give the lead, as if not quite certain which attitude to take. Possibly the return of the Irish delegates from London today may evoke some tangible expression of the popular view, but meanwhile the leaders keep their own counsel and evade questions. This attitude was shown when Mr. DeValera arrived at Mansion House yesterday, a small group of admirers began a welcoming demonstration, but the Republican leader hurried inside the building as if eager to escape notice.

Republicans of the rank and file make no secret of their dislike of the oath involving fidelity to the British sovereign and criticism among other features of the treaty, the appointment of a governor general, and the financial clauses. Women's Republican organizations are especially antagonistic toward what they call a "surrender to England." All this need not be regarded necessarily as foreboding rejection of the agreement by the Dail Eireann. Nobody doubts that there will be strong Republican opposition in the Dail when the time for action arrives, but moderate opposition predicts that they will prove a troublesome minority.

Clare's attitude on the plan is awaited with interest here. The Ulster cabinet is considering the treaty, a copy of which was sent to Premier Sir James Craig immediately after its signature in London, and Prime Minister Lloyd George's secretary is in Belfast waiting to take back the reply. Ulster, it is thought, will not enter the parliament of the Irish free state at its inception, but will wait to see if it gives promise of being satisfactory from her point of view.

PORT CLINTON, O., December 8.—Edward H. Fall, 61, prominent Port Clinton shipper and lumber dealer, died suddenly of heart disease in his home here last night. Mr. Fall was well known in shipping circles, having been engaged in the shipping trade many years.

### A Death-Filled Gap

Two trains met head-on in this gap on the Philadelphia and Reading line at Woodmont, Pa. One locomotive looped the loop. Cars were telescoped. Gas tanks exploded. More than 20 commuting residents of nearby towns were killed and 30 injured.

### "SHOT SOLDIERS WITHOUT ANY PROVOCATION"

WASHINGTON, D. C., December 8.—(By The Associated Press)—Eleven members of the American expeditionary forces were hanged in France after conviction by a military court martial. Colonel Walter E. Bethel, assistant judge advocate general of the army, testified today before the senate committee investigating charges by Senator Watson, Democrat, Georgia, that American soldiers were hanged without trial in France.

An affidavit signed by George H. Taylor, setting forth that he saw 12 soldiers hanged in France, and that he did not know whether all were convicted by court martial, was presented. The soldier said he saw two negroes and a white sergeant hanged, the latter after conviction by a French court martial on charges of rape. The sergeant, Taylor said, resided at Detroit, Mich., and asked that his mother be notified that he died of influenza. According to Taylor, there was no justification for the charges as the girl was 17 years old and received money from the soldier.

Senator Watson presented an affidavit by Samuel Long, of Paterson, N. J., alleging that he saw a private soldier killed by a sergeant with a bayonet because he was a conscientious objector and refused to carry a gun.

Two other affidavits of a similar character were presented.

"So we see," said the Georgia senator, "three instances wherein private soldiers were killed by their superiors without provocation and without trial."

Kenneth C. Folger, of Washington, D. C., in an affidavit, said he saw a private suspended by the wrists from a tree from 7:30 p. m. to 3 p. m., and then knocked down by a colonel because he refused to work on bread and butter.

According to an affidavit by Henry L. Scott, of Kenmore, Ohio, a major openly shot and killed two soldiers "without provocation." Scott was ordered subpoenaed.

"Can you give us an instance where a private soldier was arbitrarily arrested and hanged?" Chairman Brandt asked.

### DAVIS OFFERS TO SUMMON SPECIAL SESSION

COLUMBUS, O., December 8.—(By The Associated Press)—Governor Davis today advised the sub-committee of the joint taxation committee of the legislature which is studying the taxation question that he will call a special session of the legislature to consider a taxation program which the committee might agree upon, if "reasonably certain that the members of both the house and senate would favor such legislation as you propose," and also that the program submitted "would actually effect the relief desired and needed by the people of the state."

In a statement to the sub-committee, Governor Davis pointed out that he had called the members of the joint legislative taxation committee to Columbus last summer to consider such a special session in August, but that the committee voted against any special session before January, 1922.

At that time, the statement continues, a resolution was adopted providing for the appointment of a sub-committee of seven members from each house of the legislature to work out some taxation proposal and report back to the joint committee previous to January.

"Your committee," said the statement, "now wishes to know my attitude on the calling of a special session if it unanimously reports any taxation measure. I will answer that inquiry in the light of wide division of opinion evidenced during the regular session among members of the legislature on taxation questions, and in view of the great expense to the state entailed by a special session, I would have to be reasonably certain that the members of the house and senate would favor such legislation as you would propose. Further, I would want to feel that it would actually effect the relief desired and needed by the people of the state."

"If I am satisfied on these points, I will promptly call the general assembly into special session."

LONDON, December 8.—Negotiations for establishment of a common policy by Great Britain and France in regard to Germany's war obligations opened here today with the arrival from Paris of Louis Loucheur, minister of liberated regions, and several French financial experts.

### Police Shoot Into Rioting Strikers

CHICAGO, December 8.—Fifteen hundred policemen were sent to the stockyards early this morning when, long before daylight, several groups of persons, including a few women, gathered about the stockyards. Only a few hours before 200 policemen had fired into thousands of strike sympathizers who attacked plant employees and finally the policemen. Last night's toll of casualties included one seriously injured, and an uncounted number hurt when mounted police charged into the crowd with drawn batons.

All saloons in the neighborhood of the yards were closed today by order of Chief of Police Fitzmorris. The chief said that the trouble would be stopped at any cost.

When the strike went into effect here Monday, there was little trouble and the situation remained quiet until last night when workers began to leave the yards. Strikers on picket duty and strike sympathizers blocked their way to the car lines and policemen tried to make lanes through the crowd. Hundreds suddenly swelled the ranks of the strike sympathizers until they overwhelmed the few hundred policemen on duty and riot calls were sent in. When reinforcements arrived, the crowd was finally scattered and the heavy guards were partially withdrawn.

However, by 2:00 o'clock this morning they began wandering back and the number increased so quickly that the regular 500 policemen on duty were increased to 1,500.

The day shift at the packing plants was to report at six o'clock and every precaution was taken by the chief of police for their safety.

Efforts to verify a rumor that a Negro was thrown into Bibbly Creek and stoned until he was drowned, could not be confirmed.

Immediate action was expected today on a petition for an injunction against pickets of Amalgamated Meat Cutters and Butcher Workmen of North America by twenty-two packers who allege that intimidation of workers has been practiced by the union.

The larger packers say they are working about 90 per cent of normal, while the smaller firms have given out statements that their output is curtailed to 50 or 60 per cent of normal.

Forty men were cut and bruised this morning when strike sympathizers stoned an elevated train carrying packer employees to the yards. All windows in the train were broken by missiles which were thrown at it.

WILBERFORCE HAS FIRE  
XENIA, O., December 8.—Wilberforce University, an institution for colored students, near here, suffered a loss estimated at \$200,000 from a fire which last night completely destroyed Shorter Hall, a dormitory for men and the oldest building on the campus.

The upper floors of the building were occupied by 200 students, most of whom saved part of their personal effects. Recreation and laboratory rooms occupied the first floor.

### Deficiency Of Capital In Germany

BERLIN, Dec. 8.—(By The Associated Press)—The deficiency in capital in Germany totaled 4,876,830,000 marks in November, according to figures showing the demands by industrialists on the banks. The capital needed in October was 1,062,010,000 marks and since January the demands have amounted to 18,804,770,000.

The nation's floating debt at the end of November is announced as amounting to 226,500,000,000 marks.

### "Surprise" Witnesses In Murder Trial

LOS ANGELES, CAL., December 8.—Interest in the trial of Arthur J. G. Burch, charged with the murder of J. Belmont Kennedy, was increased today with publication of the testimony of Mrs. Mary A. Ballif, Mrs. M. L. Wilson and Ed. W. Cummings, termed "surprise" witnesses.

Mrs. Ballif declared that shortly before Kennedy was slain, she had met Mrs. Madeline Choudain, indicted with Burch, in a "beauty parlor" and was told by Mrs. Choudain that "Bel-ton would soon pass out."

Mrs. Wilson, proprietor of the "beauty parlor," identified post cards she said Mrs. Choudain had sent her. One of them bore a reference to Kennedy and the phrase "This is his last chance."

Cummings, a realty operator, told of having seen in Beverly Glen, the night Kennedy was killed, a parked automobile with dimmed headlights. The state contends this was a car rented by Burch and that he lay in wait for Kennedy in it.

Blind Led  
From Burning  
Building  
JERSEY CITY, N. J., December 8.—One hundred inmates of St. Joseph's home for the blind were led from the building by attendants, firemen and policemen today when fire damaged the structure.

More than fifty blind women, some of them paralyzed, were carried out. Several fainting but were soon revived.

### Dog Barks Yeggmen

TOLEDO, O., December 8.—(By The Associated Press)—A dog belonging to Bart Dutcher, postmaster of Lulu, Michigan, a village 17 miles northwest of Toledo, barked the alarm that prevented yeggmen from making a getaway with the post office safe containing \$800 in postal receipts early today, according to Postmaster Dutcher, who asked Toledo police to be on the lookout for the landlads.

The band of crooks used three automobiles in the attempted robbery and had loaded the safe into one of the cars. The machine carrying the safe had traveled only a short distance when several shots were fired at the yeggmen by persons who had been aroused by the dog. The robbers dropped the safe into a ditch by the roadside and escaped in the direction of Toledo. The safe had not been opened.

### STATE TESTIMONY BEING OFFERED

COLUMBIA CITY, Ind., Dec. 8.—Today's hearing of the case of Fred Becker, charged with complicity in the murder of Leroy Lovett, marked the twelfth day of April with the presentation of testimony by the state still far from complete. Little testimony of a sensational nature has marked the trial thus far, although interest remains at a high pitch among residents of this district, who crowd the courtroom and corridors at each day's hearing.

### THREE SENT TO HOSPITAL SUFFERING FROM GAS

NEW YORK, December 8.—(By The Associated Press)—Fifty-one members of the crew of the submarine S-48, who escaped through torpedo tubes after their craft had made a nose dive off Bridgeport harbor yesterday and stuck to the bottom, told a remarkable story of rescue on their arrival today at the New York navy yard. According to a report made to the commandant, they lightened one end of the submarine until it appeared above the surface and then sat perched on this pinnacle for more than ten hours until after darkness had fallen. Then by lighting matches they attracted the attention of a passing tanker, which picked them up and brought them here.

Several of the men, as well as Lieutenant Francis Adams Smith, were found to be suffering from the effects of chlorine gas created by salt water flooding storage batteries.

After examination, however, only three were detained at the hospital.

The submarine left Bridgeport at 10:28 a. m. on a trial trip. About one mile off the entrance to the harbor, after making a nose dive, she failed to come up and her commandant reported that the presumption was one of her hatch covers had been improperly fastened, allowing water to seep in.

Salvaging operations already have been started. The submarine is believed not to have been seriously damaged.

NEW YORK, December 8.—(By The Associated Press)—Thirty members of the crew of the submarine S-48, which sank off Bridgeport, late last night, were brought to the hospital at the New York navy yard today for observation. Many of them had been overcome by chlorine gas and three, including the commandant, Lieutenant Francis Adams Smith, were said to be in a serious condition.

BRIDGEPORT, CONN., December 8.—(By The Associated Press)—The lake submarine S-48 sank off this harbor last night and was submerged for twelve hours before the crew, by lighting the ballast tanks, raised one end of the craft to the surface and escaped through the torpedo tubes.

The submarine, according to meagre information reaching the Lake Torpedo Boat Company, was under test off the Penfield reef, when she was rammed and sunk by a tug. She now lies in 70 feet of water, one end resting on the bottom and the bow from which the crew got away above the water line. The location is said to be four miles east of Penfield reef.

The submarine was making a nose dive when the accident occurred, according to members of the crew. She was stuck in 80 feet of water and was submerged for nearly 12 hours before the craft was lightened, and the men made their escape through the torpedo tubes. They were picked up by a tanker. The majority of the crew were employees of the Lake Submarine Boat Company at Bridgeport. The craft was 98 per cent completed.

## Big Revival At Grandview Church

"A Warning Admonition," was the subject at the Grandview revival last evening. The discourse was based on The Destruction of Sodom, Genesis 19, Luke 17:28-33 and Jude 7. This awful destruction came upon that wicked city because they were so vile, lawless and wicked. The angels came to Lot and warned him to flee. Escape for their life and look not back. Lot, his wife and two single daughters accept the terms of salvation and escape. However, after leaving, Lot's wife turned back and became a pillar of salt. Jesus says "Remember Lot's wife."

"And Jehovah rained fire and brimstone upon Sodom and upon Gomorrah." When this rain of fire came upon the cities, it was too late to seek Jehovah. It was too late to repent. Those who married and were given in marriage, having a good time, had no time to turn over a new leaf. They did not believe that judgment was so close. They did not heed the message of truth. Lot warned his sons-in-law and married daughters, but he seemed to them as one that mocked. For they did not accept the terms and went down in the great conflagration.

When it rained fire from Heaven, it was too late to save material things. It was too late to gather up their families.

Dear people, is this not a warning example to us? Jesus says that the Day of the Son of Man shall be as the days of Lot. Please read Luke 17:28-32.

Servants again tonight at 7:00. The subject is, "A Soul in Bondage." Be sure to read Romans 7. "Come thou with us and he will do thee good." A welcome to you.

## Agony of Asthma

New Prescription Gives Instant Relief. Makes Breathing Easy

Thousands of people suffer from Bronchitis or Bronchial Asthma who, having tried advertised remedies, inhalers, "cure" smokes, douches, doctors' changes in climates, etc., without permanent benefit believe nothing can ever make them well. Extensive experiments finally enabled a Worcester, Mass., physician to find a simple, harmless treatment that gave almost immediate relief in even the most stubborn advanced cases and great numbers of former asthmatics have now used his treatment with wonderful success. The doctor's prescription is called Oxidase and can be obtained from Wirsner Bros., Fisher & Streich and leading druggists everywhere, who sell it on a guarantee of money back on the first case where it is a cure. It fails to give prompt relief.

Many users who for years have been obliged to sit up in bed gasping for breath and unable to sleep report that they now take a dose of Oxidase when going to bed and then can be down and breathe easily and naturally and get a good night's restful sleep.

Oxidase is a safe treatment, easy and pleasant to take and contains no harmful, habit forming drugs.—Advertisement.

## Dr. Bingham

Made his comparison on October 24, 1921. He used the famous Edison Turn-Table Comparison. Each phonograph plays in the same room, from the same position, using recordings by the same artist. Hear this comparison yourself.

# This was the NEW EDISON

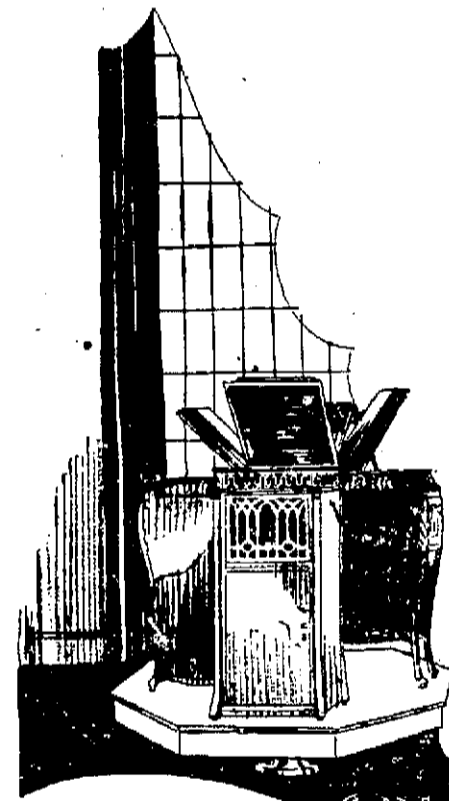

Dr. W. V. BINGHAM, Director of Research at Carnegie Institute of Technology, made a scientific comparison between four different phonographs. He wanted to determine which was the best. The Phonograph Comparison Card, above, shows the result. Phonograph Number 4 made a clean sweep of all 9 tests. That phonograph was the New Edison.

This marvelous victory is easily explained. The New Edison is the only phonograph which sustains the test of direct comparison with living artists. If you want "to be shown"—

## You can make the same comparison

We have a Turn-Table, just like that which Dr. Bingham used. Come in. Listen to Frieda Hempel, as she sounds on the three ordinary phonographs; then hear the New Edison RE-CREATE her voice. Compare, in the same way, with other artists who have made both Edison RE-CREATIONS and talking-machine records. Score each result—on a Phonograph Comparison Card. Decide for yourself whether the New Edison's RE-CREATION of each artist's performance isn't more realistic, more beautiful, more satisfying.

Our Edison Turn-Table Comparison, plus the Phonograph Comparison Card, offers you the way to decide the best phonograph,—and decide it for yourself. Come in. No obligation. Just ask to hear it.

## SOUR STOMACH INDIGESTION

**Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.**

East Nashville, Tenn.—The efficacy of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver."

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E. M.

## WOMAN'S CLUB TO PUSH SALE OF XMAS SEALS

For a number of years the Ohio Society for the Prevention of Tuberculosis conducted a persistent campaign of education and legislation, teaching that tuberculosis is preventable and curable and succeeding in getting laws passed providing for hospitals, open air schools and public health nurses for the care of the infected.

Christmas Seals emphasize education in health. Every teacher and almost every pupil in the schools of Ohio is familiar with the cheerful little Christmas Seals sold each year. They are also familiar in a general way with the purpose of these seals. They know that they furnish the sinews of war in the campaign against tuberculosis.

Each year the school children do their share in helping raise funds for the fight against tuberculosis and this year is no exception. Here in the Overlook city the school children are entering the annual sale work with more vim than ever before. The sale of seals through school children started Tuesday and the reports for the first two days from only several schools is very encouraging to the fifty-five business men of the city who have undertaken the work of selling \$10,000 worth of seals this year. Last year the total sales were less than \$2,000, but that has no bearing on what the goal has been set for this year. Scioto county has not been doing her share in the fight against the white plague and this year the business men decided that it was high time more work along this line was accomplished. With the \$10,000 mark as their goal they have organized a working and sales force that is expected to bring total sales close to that mark.

The several thousand school children busy selling the penny seals are not the only ones at work as there are a number of men and women busy. The Retailers' Committee was busy in the North End several days ago and as a result of one day's work report sales amounting to nearly \$125.

The Women's Club members are to assist the booth committee. Mrs. William H. Schwartz has been named chairman of the women workers from the club. She has named seven sub-chairmen who will look after the appointment of sales people for the different booths. The seven sub-chairmen under Mrs. Schwartz are Mrs. E. H. Price, Miss Edna Strick, Mrs. Ralph Martin, Miss Edna Davis, Mrs. H. C. Rugh, Mrs. George Appel and Mrs. Robert G. Bryan. These women will see to it that there are women always at the booths ready to make sales of seals.

Come, this is an old-fashioned revival, tempered with common sense, and people have a chance to think, not being swayed by a superhuman excitement.

Super-Production

See A Thousand And One Thrills at The Eastland Theatre for Three Days Only. Starting Tonight—Matinee and Night—Jewel Pictures Presents the First Super-Western Picture Ever Screened, "The Fox," Starring Harry Carey, supported by A Thousand of the West's Most Famous Cowboys—You Never Saw Anything Like It Before.

## Program

A—"From the Land of the Sky Blue Water," a color treat.  
B—"Around Corners," A comedy starring Brownie, the dog actor.  
C—Jewel presents Harry Carey in "The Fox," supported by Bruce Eason.

What is promised as the greatest Western photodrama ever made, has been produced by Universal with Harry Carey in the starring role. Believing in the widespread appeal of the West today, with its thrilling romance and picturesque realism, Universal decided to make a "Super Western" picture. It is "The Fox," which comes to the Eastland Theatre tonight and which is the first super-production to be made by the long popular "Western" star, Harry Carey.

In recognition of his long list of successful photodramas and of the place which Carey holds in the affection of the American public, Carl Laemmle, president of Universal, recently cited the Ace of the Saddle and awarded him a place among the Universal-Jewel stars, who make Universal's most elaborate pictures. That means that he is to appear in photodramas for which there is no time or economic limit in production and that he is to rank with the foremost stars of the world in the elaborate series of his starring vehicles. "The Fox" is said to have cost nearly a quarter of a million dollars in production.

His first photodrama to go to the screen as a Universal-Jewel is naturally of particular interest to the public. It has already been pronounced a masterpiece by critics within the motion picture industry and now the verdict of the playgoers is awaited to confirm the judgment of the profession. The story was written by Carey himself.

# Christmas Suggestions

-of true acceptability-

Down in the toe of every Christmas stocking, waiting to pop out with the ruddy red apple and the odd shaped bundle (which one always finds in the toe of any Christmas stocking, you know) is a song. It is the song that came into the world to greet the Three Wise Men—the song Tiny Tim heard—the song you will hear, too, if you put the inner ears of your heart in tune. For it

is the Christmas song—it's message is "Peace on Earth, Good Will Toward Men." All the year it hums its rhythm into the warp and woof of living—but at Christmas time it exultantly flings its melody broadcast into the world. So, hidden away in the toe of your Christmas stocking there is this song. So, hold it fast—this lovable, beautiful, livable Christmas Song!

## Of Course, Boys Like Apparel For Christmas

We were just reading the other day where, after investigation, it had been found that boys really like things to wear at Christmas time. We believe this fully for we were once a boy ourselves and if Old Santa brought us a new pair "breeches" they were certainly mighty welcome. Following the suggestion, we believe your boy would like these.

BOYS' SUITS AND OVERCOATS, good looking and sturdy garments that would delight the heart of any boy, at \$7.50 to \$16.50.

BOYS' PANTS, good looking and, well they do wear out but they certainly take their time about it, at \$1.15 and up.

RAIN COATS AND HATS, give these to boys at Christmas time and they'll pray for rain the next day. Guaranteed for service, \$6.00 and \$8.00.

SWEATERS that make boys smile, \$3.95 to \$7.50.

BOYS' KNIT TIES, special 50c.

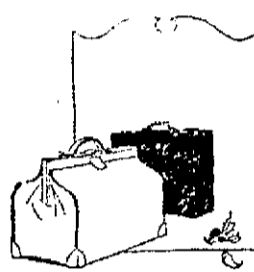

BOYS' INITIAL BELTS, just like Dad's, \$1.00.  
KAYNEE BLOUSES AND SHIRTS, \$1.00 to \$2.50.

## You Can't Beat Gloves As Presents

Folks have tried in years past to get something different, something new and unheard of to give at Christmas time and after running their legs off, they settle down with the remark, "Well, I guess you can't beat gloves after all." To save time and trouble and at the same time assure your recipient a handsome present, buy gloves.

WOMEN'S KID GLOVES, \$1.50 and up. Fabrics somewhat cheaper.

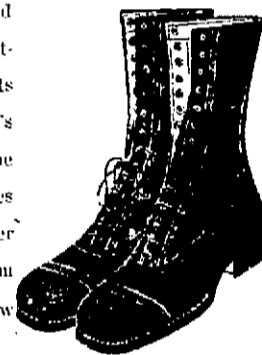

## So Many Possibilities In Luggage

One of those fastidiously furnished and fitted cases or bags that men or women hesitate to purchase for themselves—or a wardrobe trunk that so conveniently keeps clothes handy and well-pressed—or a suit case or traveling bag or overnight bag. You will find here Christmas Luggage of distinction that has the name of well-known luggage makers.

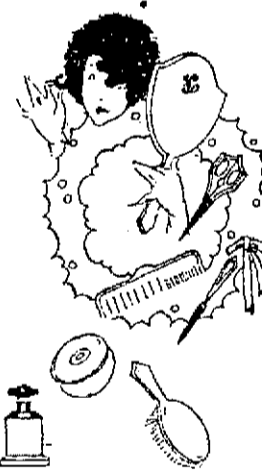

## New Shoes Make Splendid Gifts

There isn't anyone who wouldn't like to find new shoes among their gift packages on Christmas morning, and of course these practical gifts come most appropriately from members of one's own family. And of this you may be sure: the youngsters will be satisfied to have their shoes just come down the chimney, but father, mother and big sister prefer to have their's come from here where they know the most distinctive new footwear is always shown.

## Ivory Toilet Articles Are Always A Happy Choice

All women cherish the personal gift—those dainty accessories that are so important to the daily living scheme. That is why the ivory gift for bonnie use is always so welcome. Come and see what lovely Ribbons and suggestions for using them you can pick up in our Ribbon Section.

## So She Is Shopping Early

"Yes, I've more than half my shopping done," we overheard a woman say yesterday—"Last Christmas I shopped late, and was so tired on Christmas day that my little son said to me, 'Why, Mother, you shouldn't be tired on Christmas, I'm not tired'—so this Christmas I'm shopping early. It's really fun for you generally get first choice and the salespeople are so willing to show you things, for they aren't so rushed and tired."

They come in different colors and the women's Slippers are ribbon trimmed.

## CONFESSIONS OF A MOVIE STAR CHAPTER XLV — GINETTE FEINS A BAD COLD

WHEN the week, GINETTE lounged into my room. I was resting between scenes. I'm to be shot 250 times in "Love Lorn." There are about 300 shots to the story and it's a fearful ordeal to be in so many scenes, but a wonderful opportunity for the youngest star in the company.

I supposed GINETTE had come to rave because she was not in the cast of "Love Lorn," but her only reference to the new play was:

"You're sure the berries, dearie! Make the most of the hay while you're in the sun!"

"You mean you believe the studios may close?"

"Oh, not yet! McManis hasn't been hit hard, but who knows when he will be? And I haven't saved a penny!"

"You're a contract!" I reminded her.

"Which expires this month. But, I say, let's cheer up. There's always something funny happening around the studios. Cooley's the goat just at

present. Say, I go into kinks when he opens his mouth!"

"I don't think I'm on, GINETTE!"

"Listen! Hutch went back to town in my motor last night. He got pretty shabby going through the park. Begun to scold about his wife. Said she's tied up with her babies. Seemed to forget they're his babies, too. Said she don't appreciate friend hubby. That she's cold. If considerably brainy. Can't see why he ever fell for her type. AND he concluded, 'Now, GINETTE, YOU understand YOU'RE different from other women!'"

"Let him rave to the bitter end, and then I turned on him:

"Oh, bloody!" said I. "You bet I understand, boy! I've got your number all right, and I don't admire it. Why can't you be different from other men yourself?"

"At that Cooley returned to the rightful corner of the seat and asked, 'Wallya mean, GINETTE—different?'"

"This," said I. "Every married man who ever tried to make love to me excused himself by railing about his wife. What a lemon he'd picked!

And I am darn sick of the dope. Cooley! I'd appreciate a change, from that ancient slush! Something true, if possible!"

"Of course the poor boob could only mop his face. I raved on:

"And every fake of 'em ends by telling me I'm so different from the girl he picked out to marry! And choosers as well as bad losers, some of them are.' Hutch was game. He wanted to take me to dinner and finish the talk, but I hit it up for his house and handed him over to his wife. And she brought the sweet bubbeans out to the car for me to see. She held 'em up for me to kiss."

To my amazement, GINETTE, the "perfect lady" of the company and the most imperfect character in it, wiped the tears from her glorious eyes. "I had to tell her I couldn't kiss the babies—because—I had a bad cold!" GINETTE coughed, then laughed:

"Say! I'll bet Hutch has once-upon-a-time taken his serrows to your Motherdear!"

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Dolly—Please print a recipe for caulding home made sausage.

A TIMES READER

Make it into little cakes and fry it just as you would for the table, only not quite so brown, then pour the hot grease over it. When you open it you can fry it again until heated through and it will taste just like fresh sausage. You can use the pint or quart jars and seal same as you would fruit.

Dear Dolly—I am a popular young man, especially with the girls. I don't try to make myself popular, but if I say a civil word to girls they think I have proposed. What shall I do about it?

POPULAR KID

Don't kid yourself about being popular. The girls are probably making fun of you and you are too conceited to know it.

New Boston—Miss Wise—I am asking for a little advice. How far is it from here to Alaska and what is the population of that country, and what would be the cost of travel to Alaska.

T.M.

I don't know how far it is from here to Alaska by the shortest route, but it is 2,477 miles from here to San Francisco, Cal., and it is 2,765 miles from San Francisco to Nome, Alaska. The population in 1918 was 6,181. Inquire at the local railroad ticket offices for the best route and the price of transportation.

Bacon Vista—Dear Miss Wise—I have been keeping company with a

young man for one year and I would like for you to advise me what would be suitable for me to give him for a Christmas present.

THANK YOU.

I imagine he would like a red tie. Country boys just dearly love pretty ties in socks.

If some one will supply this information I will mail it to you.

Dear Miss Wise—What do you think of a young lady who will go out and dance in a public place a few days after her father was buried. Don't you think she should be ashamed of herself.

WANT TO KNOW

Yes, I think she should stay away from dances for at least six months or a year.

HOPEFUL, Schuylerville—I can't give you the information you want through this department, and you forgot to send your name and address for a personal reply.

## Evidence Flimsy, Prichard Dismissed

R. S. Prichard, prominent local automobile dealer, who was brought to trial in Municipal court Thursday afternoon on two separate charges of unlawfully killing quail, was dismissed by Judge McCall, who exonerated the accused for lack of convincing evidence to support the complaints.

The alleged offenses were committed on November 18, 1921, and the complaints were filed by Game Protector Frank Voorhees on information which proved too flimsy on which to secure a conviction. Three witnesses, Henry Bowman, Mrs. Henry Bowman and Minnie Squires were called by the prosecution and they told of seeing hunters shooting quail in the vicinity of the Weitz summer camp between Seatonville and Wheelersburg at various times during the month of November, but they were unable to identify Mr.

Prichard as one of the men they observed killing the birds. Bowman testified that he saw a man attired in yellow hunting clothes kill three quail and said that he took the fellow to task for careless shooting, but he was unable to say that the hunter was the defendant.

The trial suddenly terminated when the state rested its case as Attorney C. M. Searl quickly interposed a motion at this point to dismiss the defendant and it was sustained by the court.

## Shot Soldiers

(Continued From Page One)

Colonel Bethel informed the committee that the American military au-

thorities had exclusive jurisdiction over the American army and the French never attempted to exercise jurisdiction in criminal cases.

The first of the eleven executed, he said, was convicted of murder and rape, and the second, a negro soldier, for rape on a French woman 68 years old.

"In every case where we recommended the death sentence," he said, "I read the evidence carefully to see that no mistake had been made."

The third and fourth executions, the colonel said, also were for rape, both soldiers hanged after trial being negroes.

After testifying that the first six cases were for assault, the witness testified that the seventh case was that of a negro soldier who murdered

a French professor as the latter attempted to save a woman from a number of rowdies. Case No. 8 was the hanging of a soldier for attempted assault on an eight year old Belgian girl.

Next was the hanging of a white soldier for murdering another white soldier, the crime being characterized by Colonel Bethel as particularly atrocious.

The last case, the hanging of two negro soldiers together was after conviction for assaulting a French girl and murdering her father as he attempted to save her. Colonel Bethel said some of the convicted men admitted their guilt on the scaffold.

In all, he told the committee, 62 death sentences were imposed. General Pershing ordered 11 executed and disapproved the sentence in 11 cases. The other cases, the witness said, were reviewed at Washington and changed.

WASHINGTON, D. C., December 8.—(By the Associated Press)—Beginning investigation of charges by Senator Watson, Democrat, Georgia, that private soldiers were hanged during the war without conviction of court martial, Chairman Brandegee, of the special senate committee, announced today that the proceeding was not an investigation of the Georgia senator, but was ordered to ascertain whether "officers of the United States army were murderers."

Senator Watson appeared before the committee immediately after the adoption of a resolution requesting him to appear and testify in support of his charges.

"I made no indiscriminate charge in the senate against officers and nurses," Senator Watson said. "I said too many officers were guilty of brutality toward soldiers."

Explaining the work of the committee, Senator Brandegee said it was a "most disagreeable duty," adding that he had received many letters "resenting" the charges, and that the purpose was to find if they were true.

"I told Senator Watson," the chairman said, "that I would summon witnesses from any part of the world, that he on his own honor as a senator, could present evidence to support his charges."

Senator Watson declared he was prepared to prove his charges that soldiers were hanged without trial.

The senator read a story from a Waco, Texas, paper which quoted John F. Forbes, of Cleveland, Ohio, a former service man, as saying the Watson charges were true and that "the half had not been told about cruelties inflicted on soldiers by officers."

"Senator, do you believe any American soldier was executed when he was innocent?" Chairman Brandegee asked. "I do," Senator Watson shot back.

"Well, will you let us have it?" "I will," said the Georgia senator, "but you have asked me to read this paper."

"Go ahead, then," the chairman broke in, and the senator proceeded to read Forbes' statement that he had seen a man hanged.

"Do you want Forbes' statement?" Chairman Brandegee asked, and Senator Watson said he did.

The newspaper printed a picture of what was purported to be the gallows on which Forbes alleged he saw the soldier put to death.

## Substantially Lower Level Of Railroad Rates Anticipated By Interstate Commerce Commission

WASHINGTON, Dec. 8.—(U.P.)—The Interstate Commerce Commission in its annual report today to Congress that a "substantially lower" level of railroad rates and fares would be possible with an exception in the volume of traffic following the present business depression and "with a further adjustment of operating costs in harmony with prevailing tendencies."

Freight rates, following war time increases and some cases after readjustments, have not yet reached an equilibrium, the commission says, because the chief factors controlling them, "the value of service and the cost of transportation still are in a state of flux."

The commission's report is for the year ended last October 31. It discloses that a total of \$430,000,000 has been ordered paid to the railroads under the government guarantee against losses during the first six months after

their return to private ownership and that there is still due an estimated \$105,000,000 on this account. Out of 677 carriers entitled to guarantee payments, the commission says 547 have filed claims totaling \$818,000,000 but payments of only \$336,000,000 have been held justified by the commission's audit. No statement was made with respect to the difference between the roads' own summary of their losses during the six months and the government's findings. The roads which have not yet filed claims for losses, the report adds, are short lines and the total will be "relatively small."

In its capacity as supervisor of railroad capital the commission issued during the year certificates allowing to issue stock and bonds to a total of \$1,730,000,000, the report says. The commission points out, however, that this total represented for the great part refunding operations, not involving new and increased investments.

Rev. Hugh L. Evans of the Second Presbyterian church issues a warning to the public to beware of persons who are using the church as a cloak of protection under which to solicit donations and contributions. Such work has not been authorized by the boards of the church and individuals working as such are not individuals of the church.

All contributions of this nature are looked after in another way at Second church and during the Christmas season members of Second church will have the opportunity to give to worthy causes.

**Cyclist Injured**  
Riding a bicycle with a coaster brake after becoming used to a wheel without a brake proved costly for Albert Steadly of 1319 Lincoln street several days ago when he figured in an accident at Eighth street and Lawrence street. He was coming down the south side of the viaduct towards Eighth street and was going too fast when he attempted to make the turn west onto Eighth. In attempting to make the turn and becoming confused with the workings of the brake on the wheel he collided with a big truck going east on Eighth. The startled serious bruises about the legs, an X-ray picture of the left leg showing no bones broken. The bicycle was badly damaged.

**Patrick's Statement**  
Hiram Patrick named by a divorce action instituted in court here Wednesday by George C. Wallace, 712 Third street, who claims his wife, Mrs. Emma Wallace, left the city in company with Patrick, Tuesday, does not deny he was in the same machine with Mrs. Wallace, but says that he only acted as driver of her automobile. Patrick says he had been employed by the Wallace family for sometime as driver and that Mrs. Wallace paid him \$10 to drive the machine to Columbus for her. He says he was in Columbus only 20 minutes, catching the next train for Portsmouth.

Madeline Morris, who filed the complaint, told the court that she narrowly averted a collision at Seventh and Gay streets with the machine driven by Tolle on December 1, and she declared that the near accident was caused by the careless manner in which he drove the truck. Other witnesses stated that Tolle was driving fast at the time.

**John William Dewey**  
Pike county lost one of its best known and well liked citizens Wednesday morning when heart trouble caused the death of John W. Dewey at Jasper. Mr. Dewey, who was in the J. W. Dewey store with his brother Charles Dewey was at his place of business Friday, although he had been complaining for over a week. Saturday afternoon about one o'clock he suffered a heart attack at his home and from that time on was in a physical condition. The attention of a physician produced little Saturday. Death came at five o'clock Wednesday morning at the time in Jasper.

John William Dewey was a son of Joseph Warren Dewey and was born at Harrisville, Seato county, February 5, 1863 and was nearing his 58th birthday anniversary. In 1871 he moved to Coopersville in Pike county and from there to Idaho in 1872. He located in Jasper in 1876 and except for one year in Lancaster and two years in Waverly spent the remainder of his life in Jasper. In Lancaster he conducted a shoe store and in 1890 and 1901 in Waverly had a tinners business. At Jasper he was in business with his father the late J. W. Dewey and his brother, Charles Dewey. The father passed away in 1916. Since then the general store business, one of the largest in this section of the state had been continued by J. W. Dewey and brother Charles, under the firm name of J. W. the original owner. The business will be continued by Charles Dewey and his son Floyd and Paul Dewey son of J. W. Dewey, the firm name to remain the same, J. W. Dewey.

Mr. Dewey was married Aug. 27, 1884 at Pikeston to Flora Belle Hadley a native of Illinois.

Surviving are the widow, Mrs. Flora Belle Dewey, three children, Mrs. Fred Burger and Mrs. J. Mack Miles of Pikeston and Paul Dewey of Jasper, a brother Charles Dewey of Jasper and a sister Mrs. V. H. Board of Columbus.

Mr. Dewey's illness was thought to have been brought about by the work incident to the big fire that destroyed the Dewey store November 20, 1920, and also the building and opening of a new and more modern general store. The new store opened after considerable hard work Oct. 3, 1921. Mr. Dewey was proud of the new business place and things were just getting to run smoothly when the heart attack claimed him. Besides being in the general merchandise business Mr. Dewey gave considerable time to timber business, buying and selling many ties. He was a man, fair and square in his business dealings and through his business activities made many friends. In this city he had a number of friends formed in the lumber business and also wholesale firms through which merchandise was purchased for the big store.

Mr. Dewey was a staunch Republican and had always played an important part in Pike county politics although he never held an office. He had been a candidate for probate judge, constitutional delegate and state representative. The deceased had been a member of the Masonic lodge at Lancaster and of the K. of P. lodge at Pikeston.

J. M. Stockham, Mrs. C. M. Gilbert of Second street, and Mrs. Rosanna Mische of Seatonville at Ninth street are cousins of the deceased.

Funeral services will be held from the home at Jasper Friday morning at 10 o'clock with Rev. Vernon of Jasper M. E. church in charge. Burial will be in Mount cemetery at Pikeston.

## OFFICIALS BAFFLED BY MURDER

Baffled at every turn, local officers frankly admitted Thursday that they have so far been unable to work up the semblance of a real clue in the murder of the man whose body remains unidentified in the Lynn mortuary.

They have run down many plausible clues, only to learn that they were founded on hearsay evidence, and the wretched murder remains as much of a mystery as it did when the dead man's body was found on Dry Run last Sunday morning.

While thwarted at every move rendering to solve the mystery, the officials have not relaxed their vigilance nor their efforts to locate the guilty persons or in having the body identified. They are confident that if the man's identity could be established they would have a better chance to work up a tangible clue.

The officials are convinced that two men committed the murder and that they had no intention of perpetrating it where they did. Sheriff E. E. Rieky, who is working diligently on the case, today expressed the belief that the man talked on going away from the spot where his life was cruelly snuffed out. When confronted with this situation the murderers at once got busy and took the life of their prey by slashing his throat. They after riding his pockets they tossed his body into a half swollen creek in the hope of covering up their awful deed.

"I really believe the men intended taking their man to the head of Dry Run, but he talked on them and the deed was committed just where there is a clump of houses, and why some one did not hear any noise is a mystery to me," the sheriff said today.

Sheriff Rieky last night secured the man's overcoat and hat, which had been in charge of Cooper Hendrickson. The officials believe that people who saw the dead man last week will recognize his coat and hat quicker than they would the man. The coat is unique in design and would attract attention any place.

Clay Huffman, a Front street tinner, says he saw a man wearing this coat last Saturday in the West End. He says he was accompanied by a woman and that they walked around the West End for several hours. Mr. Huffman, who lives on Market street, identified the body as the man he saw standing around Front and Market streets last Saturday. "I sized him up closely as he wore a funny looking overcoat and the woman had on a dress of a unique design," Mr. Huffman said last night.

The officials say they will quiz the woman as soon as she is located. They are also investigating the rumor that the dead man was seen at Second and Madison streets last Saturday afternoon accompanied by two roughly dressed men.

It is believed these men went to Dry Run and met the dead man there by appointment. It is the consensus of opinion among the officials that the slain man's mission to Dry Run was to secure some whiskey.

Despite the fact that thousands have viewed the body, it remains unidentified. A woman from Circleville viewed it yesterday, but said it was not her husband. He is a carpenter, she says, and has been missing several weeks.

A Jackson man thought it might be a missing brother, but it did not prove to be.

Merle Smith of Vancuburg says he thought it was his brother, but upon looking at the remains he was soon convinced that it was not. And so it has been with hundreds of other people, the Lynn morgue being crowded night and day by persons anxious to see the body and to see if they can serve any light on its identification. As late as 2 a. m. yesterday morning people called at the morgue and many are from nearby towns, where the murder mystery has created something of a sensation.

It is clothed in impenetrable mystery and the officials have absolutely nothing to work on.

They do not know where the man had been working.

They have no definite information when he reached the city.

They do not know what his mission was in this section.

They have been unable to locate any relatives.

They have learned that the man had a big red of bills.

They know he exhibited them in Market street restaurants.

They are sure that he was seen with two men in the West End.

They are as far from solving the mystery and apprehending the murderers as they were the first of the week.

Chief Distel and Officer George Harding measured the dead man's head last night and soon learned that the hat he wore was 6 7/8 in size. They labored under the impression that the hat belonged to another and that it was too small for the slain man. Every possible clue is being given consideration.

V. E. Martin, who claimed to be at the sheriff's office today, examined the dead man's overcoat and he quickly found that there is a long strip set in on the right side running from under the arm to the bottom of the coat. This piece was probably put in to make the coat bigger as it is of a darker color and different texture than the remainder of the coat. According to Mr. Martin, the coat is the kind worn by stockmen of the middlewestern section. Mr. Martin also examined the hat worn by the dead man and claims that it is not an Army hat, but only a cheap imitation. "The tailor who altered the coat could probably identify the coat and man if he is in this part of the country," says Martin.

ceased last January its activities in the enforcement of prohibition, it is continuing to cooperate in this work.

The Attorney General observes that "there has been no decrease in the number of illicit distilling cases since the enactment of the prohibition laws," and that "the court calendar in some jurisdictions have been overtaxed by this class of cases."

"Where the facts warrant," he says, "the offenders have been vigorously prosecuted, and it is hoped that this will result in a material reduction of such violations of the law."

Selective Service Act cases disposed of during the year numbered 1,563, the report says, the convictions numbering 148, with 130 pleas of guilty. Cases pending at the beginning of the last fiscal year numbered 28,087 and 1,331 new cases were begun.

Violations of the so-called disloyalty sections of the espionage act have greatly decreased, according to the report, which notes that only six cases were begun under the entire act during the fiscal year, while 41 cases were disposed of, 130 cases having been docketed at the beginning of the year.

Mr. Daugherty declares that as an organized system the white slave traffic has been broken up, but adds that a great many individual cases still exist with the department making every effort to break up this practice also.

Complaints arising under the Peonage Act increased during the year, the report continues, "a peonage was found to exist to a shocking extent in Georgia, Alabama and some parts of Texas." Several convictions have been obtained and several prosecutions are pending, it is added.

Among his specific recommendations, the Attorney General asks for enactment of legislation.

Authorizing the appointment of two federal judges at large for each of the nine judicial districts in order to assist in clearing the congested court dockets;

Making it a criminal offense to send through the mails letters threatening injury to life or property;

Authorizing the presence of stenographers in grand jury rooms;

Making it a crime for a single individual to defraud, or attempt to defraud the federal government in any manner, as the law now provides for the punishment of "two or more persons who conspire to defraud."

Making criminal an attempt to commit a crime against the United States.

**RAID FASHIONABLE DISTRICT**  
TOLEDO, O., December 8.—Federal prohibition agents raided the home of Charles Rankin in the fashionable west end district here last night and seized moonshine apparatus valued at several hundred dollars and 130 gallons of beverage alcohol. In addition to the alcohol the officers confiscated a 100-gallon still, six fermenters, 480 gallons of rye mash, a barrel of caraway seeds, two rye grinders, similar to those used in distilleries, 29 one-gallon kegs of whiskey and a gallon coloring matter. Rankin is being held for action by the United States Commissioner.

## THE IRON MARKET

CLEVELAND, O., Dec. 8.—The Iron Trade Review today says:

Reports of various proposals to merge iron and steel properties now rampant in the industry are accepted as the logical outcome of the market and competitive conditions which have prevailed for the past year or more. Apparently the only means of escape from an indefinite period of profligate operating is opened to some companies in this way. The localizing influence of excessive freight rates is one factor which is forcing serious consideration to be given to the possibilities of national distribution through scattered works. Distinct from the outstanding plan to combine a number of leading independent companies no less than three other negotiations toward consolidation plants are under way. Approximately a 50 percent market continues in iron and steel with indications that this will taper off rather than expand during the closing weeks of the year.

November made a surprisingly good showing in pig iron production, continuing the gain of the two previous months to the extent of 180,900 tons. The total for the month was 1,414,958 tons, the largest since March, or on an average daily basis of 47,165 tons compared with 39,821 tons in October, a gain of 18.4 percent. The number of furnaces in blast on the last day of November was 120 as against 95 on the corresponding date in October and 76 in September.

Oil field demands again stand out prominently in the week's business. Recent orders for pipe lines call for approximately 45,000 tons of steel. Railroad buying offers encouragement because of its sustained character. The 125,000 to 150,000 tons of rails for the New York Central system for 1922 delivery have been allotted. The Texas Pacific has closed for 15,000 tons. New car and repair orders this week total 4000.

The Iron Trade Review's weekly composite index of 14 iron and steel products continues to slightly recede. This week it is \$34.29 as against \$34.71 in all November, \$34.46 in all October and \$33.29 in December, 1921.

A leading American independent steel-maker is negotiating in London for 250,000 tons of steel scrap. British contractors unable to obtain deliveries in Germany where the business first was placed have inquired in this country for 20,000 tons of plates for the Bonlay pipe line.

## Primate Of Ireland Thinks Terms Good

BELFAST, December 8.—(By the Associated Press)—Cardinal Logue, primate of Ireland, told the correspondent today that he thought the Irish terms very satisfactory. He added:

"I would like to see unity and no division of the country, so that all could pull together for the good of Ireland. I would like to see the people of Ireland living in peace and charity with each other."

The cardinal expressed the fear that the expense of the northern government would weigh heavily on the people of six counties. Replying to a query as to whether he thought it wise for Ulster to retain her own parliament, he said:

"I think it would be a blessing if we could all pull together and give up the old little enmities. It is satisfactory to be given a parliament of our own; anyway, it prevents us from being flooded by England and paying to her far beyond our taxable capacity."

In conclusion he said, "I think it would be a blessing and I think it will promote trade, if there is concord."

## Many Prisoners Released

DUBLIN, December 8.—(By the Associated Press)—King George's proclamation of amnesty for Irishmen under internment resulted in the release today of many prisoners who had been interned in the Kilmahoban and Arthur Hill camps and the Mount Joy jail.

Expressions of satisfaction over the peace terms were numerous among the men set free. One of the released men remarked, "What is good enough for Arthur Griffith and Michael Collins, is good enough for me."

WASHINGTON, D. C., December 8.—Attorney General Daugherty announced today that he would leave Sunday for New England for a personal investigation of the trolley, steamship lines and subsidiary railroad holdings of the New York, New Haven and Hartford railroad, with a view to determining the government's policy under the consent decree of October 1914, requiring the railroad company to dispose of these properties within two years.

Mr. Daugherty said he would hold open hearings on the matter in Hartford Monday, similar hearings in Boston Tuesday and probably would confer in New York Wednesday with the federal judge before whom the decree was entered.

## Air Of Distinct Optimism And Satisfaction Over Progress Of Arms Meet

WASHINGTON, D. C., December 8.—(By The Associated Press)—An atmosphere of distinct optimism and satisfaction over the progress of the arms conference negotiations appeared today as the Far Eastern committee of the whole convened to proceed with its disposition of discussions relating to China.

The proposal for a new four power treaty as a substitute for the Anglo-Japanese alliance and providing for a period of peaceful discussion before resorting to arms over any dispute involving the Pacific islands, was generally viewed today as a definite shaping of developments along important lines of accomplishment. While President Harding in declaring in an address yesterday that the negotiations promised to "succeed beyond our fondest hopes", made no direct reference to the proposed four power agreement, his expression was everywhere accepted as evidence of the optimism with which the American delegates view the present trend of the negotiations.

While none of the governments concerned—the United States, Great Britain, Japan and France—has given its final approval to the agreement, the discussions among the delegates are known to have reached a well advanced stage. Affecting in its proposed terms neither Chinese problems, nor Pacific fortifications and the naval reduction program, the project is regarded by American delegates as establishing neither an alliance nor an entente, but merely an applying to the Pacific islands the principle of the numerous Bryan treaties to which this

country already is a party. In providing a "cooling off period" of discussion before going to war over international disputes.

**Marine Guard Shoots Robber**  
CHABLESTON, S. C., December 8.—Unofficial reports reaching here today said a marine guard on a mail car of train No. 86, Atlantic Coast Line, near Savannah, Georgia, shot at three white men who were robbing an express car ahead. Two of the men are said to have been badly wounded.

SAVANNAH, GA., December 8.—Atlantic Coast Line Railway officials said today their only report concerning the shooting of an express car robber by a marine on train No. 86, concerned the shooting of one negro who was caught robbing the express car and details of that affair were lacking. Several packages of goods thrown from the car were recovered. Whether the negro was seriously hurt was not known here. An investigation has been started.

## MRS. GEORGE'S LITTLE DAUGHTER

A Very Delicate Child, Was Made Strong And Robust By Taking Vinol

DAUGHTER OF MRS. L. W. GEORGE

Albany, N. C.—My little daughter was thin, delicate and ailing. I was very much worried over her condition. I heard about Vinol and decided to try it, and I must say the results were simply marvelous. Her appetite improved, she gained in weight, her color came back in her cheeks, and all my friends comment on the change, as she is now one of the healthiest children in town. All mothers who have delicate, ailing children should try Vinol.—Mrs. L. W. George, 1119 Newberry St., Albany, N. C.

The reason Vinol is so successful in such cases is because it contains the finest building and medicinal elements of cod's liver, without oil, aided by the blood making, strength creating properties of tonic iron and beef peritone. \$1.00 per bottle guaranteed, advertisement.

### Martello Towers.

A round masonry tower designed to form a part of coast defense is called a Martello tower, being so named for its inventor. The original Martello tower was situated in the Gulf of San Lorenzo, Corsica. These became popular about 1860, but their use has in most cases been discontinued long ago, as they were found to be of little practical value.

A few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so loosens the finger, suitable side and underneath the toe until that it can be penetrated the flesh, and the nail turns naturally outward and over night, "Outgro" is a harmless, antiseptic, manufactured for chiropodists. The plaintiff complains she was thrown violently out of the wagon to the ground and severely injured, declaring she sustained a broken collar bone and right wrist and a dislocated shoulder, besides, having otherwise hurt and through Attorney Theo. K. Funk, she alleges carelessness and negligence on the part of the defendant in operating the machine in such a manner as to cause the collision, which occurred on Seaside Trail near the Bauman farm.

SATURDAY

"Awoke and found that the prunes I stewed last night had been served. At seven-ten by the kitchen clock I went in the oven with some breakfast food to cook. Then I was given six eggs which, after warming up to my work and with the aid of a cover, I poached with a little less than one-half the amount of heat ordinarily used. You see, I heat up evenly all over, hold the heat a long time and, therefore, I save a lot of fuel."

"After breakfast I made a delicious rice pudding for luncheon. The children love the kind I make. And, then it became a question of whether I would make soup, or heat up a can of beans. The soup won."

"Later in the afternoon I was given the delightful job of molding fruit gelatine. That being turned out onto a dish and placed in the ice box, I was sent to the oven to make a chicken pie."

### Home-Made Remedy Stops Coughs Quickly

The best cough medicine you ever used. A family remedy easily and quickly made. Saves about 4c.

You might be surprised to know that the best thing you can use for a severe cough, is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too—children like it—and it is pure and good.

Four 2½ ounces of Pinex in a pint bottle then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make a full pint—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly breaks the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soon your cough stops entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for healing the membranes.

To avoid disappointment ask your druggist for "4c ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

I have given it to all of my four children and for croup and severe colds I think it is very good." (signed) Mrs. Rose G. Kuffe, White Plains, N. Y.

Millions of mothers depend on Father John's Medicine to keep their children well and strong and to restore their strength after any illness. They know that it has had more than 65 years of success for colds and coughs and as a tonic and body builder.

## Gas Case Up Before The Supreme Court

WASHINGTON, D. C., December 8. (By the Associated Press)—Proceedings brought by the states of Ohio and Pennsylvania, involving the independence of industrial enterprises and the domestic comfort of the people of two states upon natural gas produced in West Virginia, were listed for argument today in the supreme court. Eighty-five per cent of the entire supply of natural gas produced in West Virginia is controlled by several companies which export it into Ohio and Pennsylvania, where the domestic supply has to a material degree, been exhausted. West Virginia gave jurisdiction to a state commission to regulate distribution of natural gas produced in the state claiming that the supply is inadequate to meet the local industrial and domestic demands. It recited in its brief, numerous instances of schools and other public institutions and of towns and villages in the state being deprived of natural gas for heating and other domestic purposes, and of industries closing down because of the shipment of the gas outside the state.

Ohio and Pennsylvania contend that the companies which control the bulk of the West Virginia supply can not be deprived of their rights to contract for its sale in interstate commerce, are bound to comply with the terms of their contracts and that West Virginia can not legally interfere in the exercise of these rights.

## Congressman Henry D. Flood Succumbs

WASHINGTON, D. C., December 8. (By the Associated Press)—Representative Henry D. Flood, Democrat of the Ninth Virginia District, died at his home here today.

Heart trouble was the cause of Mr. Flood's death. He had been ill for several weeks. His death occurred shortly before noon.

## Maryland Trees.

The majority of the fruit trees flower early in the spring, usually before the leaves appear, and their dainty blossoms form a charming picture in addition to yielding a delightful fragrance. The apple blossoms are usually white with a red tinge or blush; the peach pink; the pear, plum and cherry white; and the quince, which flowers later, a delicate shell pink.

## BROWN DISMISSED

For lack of convincing proof, Joseph Brown, grocer, 300 Boundary street, was dismissed by Judge McCall in Municipal court Wednesday when he appeared to meet a charge of assaulting Norman, 10 year old son of Mrs. David McComas, of Boundary street.

The hearing disclosed that in chasing some boys who were annoying him by alleged misconduct about his store, Brown threw a stick at the youths and it accidentally hit the McComas lad.

## Trace Car To Charleston

TRONTON, Dec. 8.—A big Cadillac touring car, stolen from Ashland, was traced as far east as Charleston, W. Va., Wednesday and there the trail is said to have been lost. There is a suspect in the case and an arrest is said to be likely.

The days of Max Carey, Pirate center fielder and captain, as a member of the Pittsburgh team are numbered. Barney Dreyfus has indicated in Pittsburgh that Carey will not play for his team next year, and Max has let it be known that nothing would please him better than to be traded. Despite the fact that "Scout" has over 300 last season, and still managed to steal thirty-seven bases, Pittsburgh fans here the veteran fly-chaser is near the end of his career.

## Suit To Recover

Suit to recover the sum of \$125, claimed as expenses incurred for medical attention, hospital bill and nurse hire was instituted in Municipal court Wednesday by Clyde E. Kessinger against Andrew Wolfe.

In his petition filed through Attorneys Blair and Blair Kessinger claims that Wolfe ran his automobile over Eugene Kessinger, son of plaintiff, and seriously injured him on August 24, 1921, the accident occurring near Seventeenth street and Oakland avenue. It is alleged that the youth was injured through the negligence and carelessness of Wolfe permitting a young girl, who was not a competent driver, to operate his machine. It is further claimed that on account of the inexperience of the girl the defendant undertook to take the wheel out of her hands and in doing so ran the machine over the boy.

# Reds Pull Off Another Big Deal

BUFFALO, N. Y., Dec. 8.—The Reds will start their season next year with an entirely new left side to their infield, where Jimmy Carey will replace Larry Kopf at shortstop, and Phil will take the place of Heinie Groh at the third corner.

Although neither deal was officially completed yesterday it is practically certain that both will go through today and that these two youngsters will start the championship season as regulars on the Cincinnati club next April. There will also be some changes in the Red outfield and some changes in the pitching staff, but the trades for

the players to fill these positions have not yet been consummated.

For Carey the Reds will give four players and \$25,000 in cash, making a total of more than \$50,000 for one player.

The Reds who are to go to the coast in the big trade are Pitchers Coughlin, Geary and Mitchell and Outfielder Charley See.

Waiters have been secured on all of these players except See, who has been claimed by the St. Louis club, but Mr. Herrmann is confident that he can persuade Manager Dickie to waive claim.

Although the Anchors lost two of the three games, they made 115 more pins in the total count than their opponents. Nardi led the bowlers though he fell below his usual mark. His final count was 474. Brownman piled up a total of 454, and Charley Flynn was the other four hundred man on the Anchor five. He made just four more than enough to admit him to the "four hundred."

Dadosky with 422 and Segbert with 410 were the only Whistles to make more than four hundred.

## Miami University Five

### Booked For December 19

Monday night Dec. 19 the Broommen society will play their first home game with the Miami University five in the high school gym. The collegiate five came right along by the side of the Cincinnati C. five which played the opening game here last season. Red Hopkins, star forward on the P. H. S. team several seasons ago and who played quarterback on the University football team this season is starring forward for the University quintet and will give the Sebets a tough fight for he is hard to keep covered being fleet of foot and an accurate basket tosser. The fact that he has played several years on the high school gym floor also makes him a player that will have to be watched.

Hopkins is sure to get a big hand when he steps onto the local floor with the college five. He is an all around clean athlete and has many friends here. He played in the Industrial League last summer with the Selby five.

## Tells Why Team

### Has Been Hesitating

BERKELEY, CAL., Dec. 8.—Dolomite information as to why the University of California has been hesitating to accept an invitation to play the Washington and Jefferson college football team at Pasadena January 2, was given for the first time today by President David P. Barrows, of the University of California.

The president said that the Texas A and M college had protested to him within the last few days against any action by the University of California tending to interfere with arrangements the message said had been made for a game between the college and W. and J. college on the same date in Dallas, Texas.

"We will play at Pasadena," continued President Barrows, "if those difficulties can be settled and the University of California can play without playing at the expense of cancelled contracts by the opposing team."

# McGraw IS THE "DAVID HARUM" IN BASEBALL

## Wizard Pays \$175,000 For Two Players; Other Deals Recalled

NEW YORK, December 8.—(By the Associated Press)—At the height of his playing career, John J. McGraw, then a member of the Baltimore club, was sold with two other star baseball players to the St. Louis team for the sum of \$175,000.

During the last forty-eight hours the name John J. McGraw, as vice president of the New York National League Baseball Club, has paid the sum of \$175,000 for two players, one of whom will not be available for the Giants until the beginning of the 1922 season.

In the spread of these two deals is epitomized the progress of baseball in two decades.

In the purchase Heinie Groh from Cincinnati for the reported sum of \$100,000 and two players, and Jimmy O'Connell, of the San Francisco club of the Pacific Coast League, for \$75,000, McGraw has clinched his claim to being the greatest baseball trader in the history of the game. In his long career as player and manager, and as president of the New York National League Club he has established a record as a buyer and trader of players never approached by any other in the league. A list of all the players bought, sold and traded by McGraw since he joined the Giants would read like the roster of a big league.

Apparently, termed the "David Harum" of baseball, McGraw has also earned the reputation of a "one season trader." To win a pennant within six or twelve months has been his objective. Players were obtained to fill a present and pressing need with the idea that they could be disposed of later when the requirements of the moment no longer exist. The development of youngsters over a period of years to bloom as sensational stars later is foreign to McGraw's plans and temperament, although he has been known to hold a promising prospect for several seasons drilling and coaching him for a permanent berth, but these are exceptions.

In spending \$175,000 for two players, however, McGraw appears in a new light, for he has in the past traded in blocks of players rather than large sums of cash. The purchase of O'Connell at \$75,000 establishes a new record for a minor league player, and viewed in the light of past trading performances, the question arises in the minds of baseball circles what will be McGraw's

limit if he turns his attention to cash purchases. His two deals in Buffalo this week place him in the highwater mark chess, so far as money involved is concerned, as shown by the attached list of cash deals based upon figures unofficially announced at time of transfers:

\$75,000 — \$100,000 — "Babe" Ruth (Boston A to New York A) Heinie Groh (Cincinnati N to New York N); Jimmy O'Connell (San Francisco P C to New York N).

\$50,000 — \$75,000 — Tris Speaker (Boston A to Cleveland A); Eddie Collins (Philadelphia A to Chicago A); Carl Mays (Boston A to New York A); Alexander and Killefer (Philadelphia N to Chicago N); Schanz, Bush Strunk (Philadelphia A to Boston A); and Gregg, Thomas, Kopt (Boston A to Philadelphia A).

\$25,000 — \$50,000 — Frank Baker (Philadelphia A to New York A); Joe Thicker (Cincinnati to Brooklyn); Thicker refused to play with Brooklyn; Benny Knutt (Brooklyn P to New York N); Joe Jackson (Cleveland A to Chicago A); Ler Magee (Cincinnati P to New York A).

\$15,000 to \$25,000 — Marty O'Toole (St. Paul A. to Pittsburgh N); Larry Chappelle, (Milwaukee A to Chicago A); George Tyler (Boston N to Chicago N); McGraw, Robinson, Reiser (Baltimore N to St. Louis N).

\$10,000 — \$15,000 — Rube Marquard (Indianapolis A to New York N); Fritz Mauer (Baltimore I to New York A); Left Russell (Baltimore P to Philadelphia A); Cy Seymour (Cincinnati N to New York N).

## Pays A Compliment

### To Local Mechanics

J. F. Polts paid local auto mechanics a great compliment yesterday when he brought his machine here to have it repaired. He says he did not find a mechanic in Cincinnati who could time his car up, and he says he tried many of the so-called experts.

Mr. Polts has revamped his picture house on Vine street and he says it is doing a splendid business. He has a deal on to buy his second theatre and one to buy a suitable home on Walnut Hill. His son Harold and his wife will make their home with Mr. Polts, who will remain here until Saturday.

## Nomads vs. Lucasville Saturday

Next Saturday night in Moose hall, Third and Washington streets, the undefeated Nomads basketball five will clash with the fast Lucasville high school's five.

This team will outweigh the locals and their coach will be in the lineup, so that means the Nomads will have to work hard to keep up their winning stride. They were without guards last

week, due to Flowers and Phillips playing with P. H. S., but the Nomads have Krawser and Foster, a last year's man to place at guard.

The nomads held a stiff practice last night and are in good shape for the game which will start at 7 o'clock. Admission will be 25 cents, and arrangements are being made to take care of a large crowd as a good many rooters will come from Lucasville.

## Burns Loyalty Passed Up By McGraw

Baseball is the funny old game. It is an established fact that George Burns has for years been McGraw's man in the hole. He is regarded as one of the stars of either league.

But what is his reward? Why he has unceremoniously been shunted to the Reds without a moment's notice. And what a transition from the world's champion to a second division club.

But Burns is no kicker. He will report to the Reds and his friends hope his work there will cause McGraw to regret that he ever chased him out of Gotham.

So you see sometimes years of honest endeavor, loyalty and faithfulness are cast aside and this and that player must step down when the iron-hoofed ruling managers crack the whip.

## Big Shake Up In Red Family Results, Says Gary Herrmann

BAYANA, Dec. 7.—Heinie Groh, Cincinnati third baseman, expressed pleasure when told that he had been traded to the Giants for Outfielder George Burns and Catcher Mike Gonzalez.

"The news is as gratifying as it is surprising," he said. "I'm certainly anxious for the season to open, and you can be sure I will do my best." Gonzalez, whose home is here, said, "I'll do my share to win a pennant for the Reds."

## Ideals of Fandom Highest Ideals—Landis

BUFFALO, N. Y., Dec. 8.—The delegates at the annual meeting of the National Association of Professional Baseball Leagues went into what may be the closing session today with the admonitions of Commissioner Landis still ringing in their ears.

Baseball, he told them at the annual dinner last night, must be better in its morality than any other business, because it serves a great, overwhelming, influencing public opinion and because "the ideals of fandom are the highest ideals." He warned against any undue optimism "over the return from the slough into which we were precipitated in the fall of 1920," adding that "baseball is still on trial in America and will continue on trial as long as baseball is played."

He spoke plainly on the unsatisfactory interpretation and application of the waiver rule and the optional agreement adopted at New York last year to replace the draft and urged organized baseball to get together on a fundamental law that will eliminate "this thing that some day surely will rise to plague you." Speaking on the broad plan that organized baseball is to facilitate the development of skill among ball players, he concluded "it can't be a good thing for something calling itself sport, that it is within the power of any individuals in the sport to place a stone wall in the path of the advancement of a ball player."

Charles I. Ebbels of Brooklyn, speaking for the majors, also urged a return of the draft system.

## PENNY ANTE

## Looking For A Place To Play

## Wellston Wants \$450

WILSON, Dec. 8.—A telegram was received last night from Manager Hughes of the Wellston football club, announcing the willingness of the Wellstonites to play the Punks at Beechwood Park for \$450, but it is considered doubtful if this offer can be accepted as the Tankers are negotiating with two other clubs and may secure better terms, either for a road trip or to bring a team here for next Sunday's battle.

This late in the season the weather is too unpropitious and the local club feels that it goes to too much expense in advertising to guarantee a club \$450 bringing the advertising bill throughout the tri-state region to over \$600, which must be realized before a cent is seen for the local club and it is not yet definitely decided what steps will be taken on the Wellston offer, though considered likely that it will be rejected.

## Books Many Games

Couch Stivers of New Boston high school has booked seventeen games for the boys' team of the school this year and about as many games for the girls' five of that school. Most of the bookings are for doubleheaders with the boys and girls teams playing on the same night. These games are without the games to be played at the high school tournament at Athens, Feb. 24 and 25.

Friday, Dec. 9, Cleaners vs. Strouvers.

Saturday, Dec. 10, Burroughs vs. Times at 3 p. m.; Seventy Six vs. Monroe Six at 4 p. m.

The United Brethren showed surprising form last night and took two from the First Presbyterian. In the first game the United Brethren, their combined pep and good playing of Marion Prosch and Schusky, played the Cubs off their feet, winning 21-8. The Cubs showed almost a complete reversal of form in the second and grabbed it 21-10. They tried to do the same thing in the third, but Prosch and his teammates were too much for them and the U. B. boys took the rub, 21-12. Dr. Wickoff and J. H. Finney played consistent ball throughout. Edw. Gordley broke into the game on the side of the U. B. and played a very good game.

United Brethren: Marion Prosch, captain, Ernest Schusky, Albert Reinhardt, Edward Gordley, Southworth and Smith.

First Presbyterian: Dr. Rapp, captain, Dr. Wickoff, J. H. Finney, Vaughn Finney, Dr. Gilbert Micklethwaite and Irving Ross.

## O'Dowd and Buff May Soon Meet

COLUMBUS, O., Dec. 8.—Eddie O'Dowd, Columbus flyweight champion, may meet Johnny Buff of Jersey City at Cleveland soon in a decision contest, according to Willard Stuart, who handles affairs for O'Dowd.

The Society of the Thirty-seventh Division of Cleveland guarantees O'Dowd \$500 for the bout with the American flyweight champion and guaranteeing the title holder of the world. Each boxer must post a \$1500 forfeit regarding weight and appearance, the telegram which Stuart received states.

## Opening Game In Winchester Saturday

Manager Julius Baumann and his Seabees will play their opening game of the season Saturday night when they clash with the fast basketball five at Winchester.

Winchester has always had a fast team and this year is no exception and the Seabees will have their hands full winning from the village five. Baumann and his Seabees played Winchester last season and the Winchester boys know Baumann and his ability to shoot baskets and therefore will give most of their time to keeping him covered.

## VOLLEY BALL

Ray Bruford Friday, Dec. 9, Trinity Cubs vs. Court House at high school, umpire Prof. Eccles.

The Burroughs certainly staged a comeback last night, jumping into third place and knocking the Monroe Six from that position into the berth they had just vacated—otherwise known as fifth place—when they took three straight sets, the scores of 21-15, 21-15, 21-15. Hyland and Egan were the shining lights of the Burroughs, but the whole team played good consistent ball, carrying it up to the net, and then putting it over low. The Monroe side of the net was unimpaired.

Burroughs: C. E. Kornis, captain, C. H. Hyland, D. Strickland, E. G. Wills, B. A. Egan, S. Kearns.

President H. H. Frazee, of the Red Sox, returned to New York today without having had any negotiations of importance in connection with the sale of the club, it was understood.

## New York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, December 8.—There are times when interviewing is supposed to be the art of self-restraint. I have a few inhibitions but when I see a fat poetess smoking a cigar I want to throw things. She waited for the reporters in her room in West Ninth street—a room where the ink-blackness was relieved only by a single candle, sputtering in a skull's head.

She—the poetess—had just had her morning plunge followed by the usual glow and perhaps a five star afterglow. It had been a terrible morning and she had chased the Muse with buffalo-like leaps from attic to cellar.

The net result was a simple little thing—she admitted it. But she would read it off just as she had jotted it down. "As I recall, it went something like this: When I am gone! And the petals slowly fall. Please be kind to my orphaned silk-worms."

O? See the cuckoo! Yellow leaves and misery. Then she passed around her cigarettes and from the depths of a bath dressing robe she took a thin, black cigar and—puff, puff, puff—were at the feet of the great, listening to pearls of wisdom fall from tinted lips or something like that.

Monta Bell, who is writing a book about Charlie Chaplin, brought Chaplin along—or rather dragged him. This shy, youthful genius is ever the gentleman. He was introduced to the impossible number of doubtful verse.

"You know Mr. Chaplin," she cooed, "I have never seen a moving picture." The atmosphere was faint waiting for Chaplin's reply.

"Really," said Chaplin, but for once losing his winning, gracious smile, "you ought to go some time. They have such comfortable chairs."

Ladies Must Live. After the first quart of red ink, he whispers a story the boys told him in front of the Bon Ton Store before he left for the East. She pulls the two gun, hair-trigger Bill Hart stuff and says "Naughty Maams." To complete the evening and display the ultimate in savor faire he calls loudly to the waiter: "Ze'addition, s'il vous plait, garcon." They ride to one of the Oranges in a quick firing metered taxi and he returns to the McAlpin to write the wife and kiddies of his louseness.

Hector

(From The London Mercury)  
He strode across the schoolroom in July. Great Hector, clanging in his brazen mail. And all the cowering Greeks with the faces pale. Creaked into jabbering Ks and turned to fly. Achilles safe because he could not die. Cheated and won; and all the lines grew static. The life was gone from out the shabby tale. And back in Homer's teeth we find the lie.

We fought for Troy behind a mossy wall. We burned the Grecian ships below a tree. Ah, that great war was forty years ago! Yet still I know that Hector did not fall.

For when the bell rang true to friend and foe. Achilles, lying Greek, was under me! —David McKee Wright.

### Positive Identification

He was newly arrived in this country and was none too familiar with the use of the telephone. So he took down the receiver and demanded: "Aye want to talk to my wife." Central's voice came back sweetly. "Number, please?" "Oh," he replied, perfectly willing to help out, "she have my second yun."

You will never allow your knife or fork to rest half on the plate and half on the table when not in use, but keep them entirely on the plate.

### The Right Way

"See here," snorted an irascible Virginia judge in an old colored man whose son had been arrested for the fifth time on a charge of stealing chickens. "I'm sick of seeing your boy brought in here. Why don't you teach him how to act? Show him the right way and he won't keep coming here."

"I'm as sick as you is of seeing him here," retorted the old man. "An' what's more, I've showed him de right way. But he won't learn nothin' and he always gets caught."

### Wise Jottings

Sharp tongues are apt to sever friendship.

Girls who say the least are the soonest married.

Many a lawyer has discovered that a wife's word is law.

A traveler says that ham plays about the same part in a railway sandwich that truth does in a horse trade.

Doubtless the way of the transgressor is hard, but the people who travel thereon have no time to get lonesome.

It is an undisputed fact that some men do not have any more sense when they get married than they did when they were born.

### It's Highly Possible

Casper, Wyo.—Ray Chapman, 27 years old, negro, was shot through the stomach and probably wounded by Officer Rogers Monday night. —Denver Post.

### Antiques

Miss Violet Jolliharque—"I hear your wife is a connoisseur in curiosities and is fond of bringing old things into the house."

Mr. Gaylord—"Yes; we were hardly married before she sent for my mother-in-law."

### Room for Doubt

"Where is Henry?" asked the neighbor of the lady whose husband he wanted to see.

"I'm not sure," she replied calmly. "If the ice is as thick as he thinks it is, he's skating. It's as thin as I think it is, he's swimming."

### Home Floriculture

"What are you keeping in your conservatory this year?"

"Nothing but the heating plant."

## How Valuable Is Optometry?

Probably more so than you imagine. Can you think of anything of more benefit to mankind than equipping a pair of eyes that do not see things as they ARE, or that impose a never-ending drain on the nervous system, and fitting glasses to them that make the eyes quite or almost normal? There is nothing in life much more worth while than that. An Optometrist is entitled to take great pride in his work. Our service leaves nothing to be desired.

## The Catholic Church Is Reasonable

All the Catholic Church desires is that the truths of Catholicity be investigated. If you do not find the same infallible certainty for the truths of the Catholic Church as for the truths of Mathematics do not accept them. Catholic truths have stood the test of human reason for 1900 years. If they were not reasonable they would have been rejected centuries ago.
